

MEHAK ANSARI

BS COMPUTER SCIENCE STUDENT

0319-5506949 | Rawalpindi, Pakistan | mehsarii18@gmail.com | github.com/MehXarii

PROFESSIONAL SUMMARY

Motivated BS Computer Science student (6th Semester) at the University of Central Punjab with hands-on experience building AI-powered tools, web applications, and networked systems. Gained real-world teaching experience at The Stairs School (Summer 2024), instructing Classes 4–8 in Mathematics, Science, and English. Proficient in Python, generative AI (Gemini API, Groq API), and full-stack web development. Passionate about solving real problems through technology and communicating complex concepts clearly.

EDUCATION

BS Computer Science | University of Central Punjab, Rawalpindi | 2023 – 2027 (In Progress)

Intermediate (FSc) | Punjab Group of Colleges

Matriculation | Rehnumma Modern Secondary School

TEACHING EXPERIENCE

Subject Teacher | The Stairs School, Rawalpindi | Summer 2024 (2–3 Months)

- Taught Mathematics, Science, and English to students in Classes 4 through 8.
- Designed grade-appropriate lesson plans and activities to address varied learning needs.
- Monitored student progress, provided constructive feedback, and prepared students for assessments.

PROJECTS

AI Resume Analyzer | Python, Gemini API, Streamlit

- Built an AI-powered tool that evaluates resumes against job descriptions, generates match scores, identifies missing keywords, rewrites weak bullets, and produces a downloadable analysis report.

ASKORA — AI Academic Assistant | Python, LangChain, Groq API, RAG

- Engineered a Retrieval-Augmented Generation chatbot that processes uploaded PDFs and answers student queries with high contextual accuracy.

NovaByte Technologies | Cisco Packet Tracer, Networking

- Designed and configured a multi-department company network with routers, switches, VLANs, and structured IP addressing schemes.

Photo Gallery Website | HTML, CSS, JavaScript

- Designed a fully responsive gallery with image grid layout and lightbox preview following mobile-first design principles.

SKILLS

Languages: C++, Python, JavaScript

Web: HTML, CSS, Basic React

AI / ML: RAG, LangChain, Gemini API, Groq API, Scikit-learn, Pandas, NumPy

Tools: VS Code, Git, Cisco Packet Tracer

Soft Skills: Communication, Teaching, Problem-Solving, Team Collaboration, Adaptability

CERTIFICATIONS & COURSES

CIT — Certified Information Technology | EWX Professional Training Institute | 2022 | Certified

Graphic Designing | Buraq Institute of Science & Technology | 2023

Web Designing | Aptech Learning | 2024
